LAERSKOOL DALVIEW

EXAM

SUBJECT: **ENGLISH**

EKSAMINATOR: MRS A. BIERMAN PARENTS SIGNUTRE _____

MODERATOR: MRS L. DE BRUYN _____

DATUM: NOVEMBER 2019 COMPREHENSION TEST: TOTAL: / 20 MARKS

TIME: 90 MIN LANGUAGE: TOTAL: / 30 MARKS

NAME AND SURNAME: _____ **GR 7** _____

Instructions:

1. Read through each question carefully, before answering.
2. Follow each question's instruction.

SECTION A - COMPREHENSION TEST

Read the text and answer the questions that follow

Great Changes

When Huston was 14, he was in a bad boating
Line 2 → accident. Doctors had to **amputate** his right leg below the knee. Before the accident, Huston had played sports. Afterwards, though, he gave them up.
Line 5 → His **artificial** leg made it difficult to run or jump. It took a lot of work just to walk.

After college, Huston began a career helping other people with **physical disabilities**. Then in 1993,
Line 9 → he learned about the 50 Peaks Project. Its leaders were forming a mountain-climbing team. Everyone on the team had a physical disability. The goal was to climb the highest point in every American state.

A man named Adrian Crane had already done that. However, Crane did not have a physical
Line 15 → disability. Besides, it had taken him 101 days to do it. The team planned to beat that time. Huston eagerly joined.

Before Huston could climb anything, he had to get in shape. He did that by running. At first, he

could barely run 20 feet. He worked his way up to
Line 21→ 100 feet, then to a mile. It wasn't easy. Often, he fell. Sometimes his artificial leg, which was made of wood and plastic, broke. Still, Huston **persisted**. By the end of three months, he could run 12 miles.

Huston also worked to build climbing skills. He joined a gym with a climbing wall. He even got an artificial leg made just for climbing.

Summit America

The 50 Peaks Project later fell apart, but Huston kept going on his own. Huston thought that he could beat Crane's record. He called his new project Summit America.

Denali Mountain

In some states, reaching the highest point wouldn't be hard. In Florida, the highest point is only 345 feet above sea level. In Delaware, it is in the middle of a busy city road. Mississippi's highest point, Woodall, is called a mountain. But Woodall Mountain is only 806 feet high.

Still, Huston would face some big challenges to reach his goal. He would need to climb several mountains over 13,000 feet. Hardest of all would be Denali Mountain. Denali is also known as Mount McKinley. The mountain is 20,320 feet high. It is very cold near the top. In fact, Denali is one of the coldest mountains in the **Northern Hemisphere**.

Denali has many dangerous storms. Most people who try to climb it turn back before getting to the top. Some climbers don't make it off the mountain at all. Over the years, many people have lost their lives to Denali.

Huston talked over his plans with guide Whit Rambach, who would go with him. They decided to start with Denali. It was the climb that would take the most time. Also, if any mountain was going to **defeat** them, it was going to be Denali.

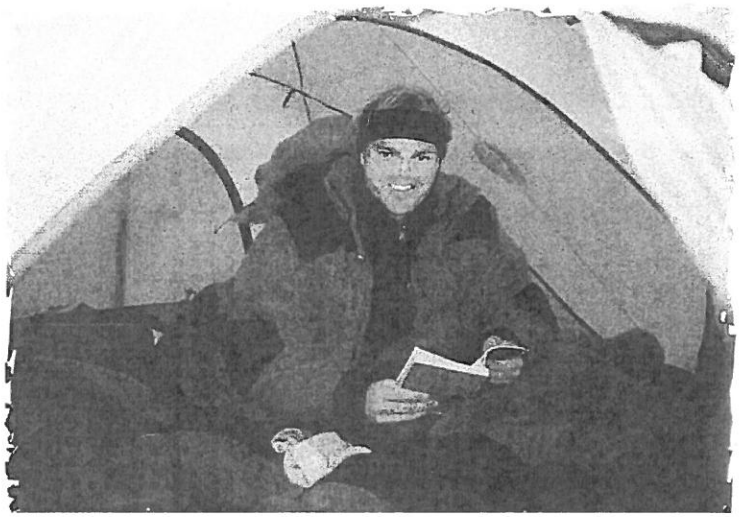

Reaching the Top

Huston and Rambach were ready to begin Summit America. They flew to Alaska. Climbers Adrian Crane, who had set the original record, and Mike Vining went with them. Once on Denali, they set up a base camp at 7,000 feet. Huston said, "From there, we began hiking up the mountain."

Often, they got terribly cold. "It was so cold, it actually snowed inside the tent," Huston remembered. His breath would rise to the top of the tent. Then it would turn to snow and fall back down on him. "We couldn't take our gloves off for more than 15 seconds or our hands would have frozen," Huston said.

The wind was also very strong. It usually blew around 40 miles an hour. During storms, it "got up to 70 miles an hour," said Huston. "All you could hear was the crush of snow and ice."

As Huston climbed up Denali, he met climbers coming down. Many of them had given up because of the stormy weather. Yet Huston kept going. But there were problems. It took more energy to climb with an artificial leg. Also, he had to go slower. The artificial leg rubbed against him, causing pain. "By the end of the day, he had extra pain that the rest of us didn't have to deal with," said Mike Vining.

Todd Huston said it was so cold that sometimes it snowed inside the tent.

At 16,000 feet, Huston and his climbing partners reached a 2,000-foot wall of ice. They climbed it using ropes and **ice axes**. On June 1, they made the final push to reach the summit.

By then, Huston was struggling. The high altitude meant that there wasn't much **oxygen** in the air. Huston had to rest between every step. "I just kept telling myself over and over: Three breaths, step, stop and rest." Again and again he fell down. His partners didn't say a word. They just waited quietly while he struggled to his feet.

"I have to admit, I thought about quitting more than once," Huston said. He didn't give up, though. At last, he stood on top of Denali. He had climbed the hardest mountain in the United States.

Todd Huston went on to reach all the other high points in the United States. He did it in just 67 days, beating Crane's record. But for Huston, climbing mountains was more than just an adventure. He said, "Through climbing, I am **representing** the struggle in all of us."

Huston climbed all of the highest points in the United States.

QUESTIONS ABOUT THE TEXT

A. Underline the correct answer. **[6]**

1) What did Huston do before climbing any mountain
   a) He got in shape b) He flew to each state c) He learned to ski (1)

2) What did Hustoncall his project?
   a) Summit Africa b) Denali Climb c) Highest Peaks (1)

3) What was the first mountain that Huston climbed?
   a) Woodall Mountain b) Mount Delaware c) Denali (1)

4) Whose record did Huston want to beat?
   a) Adrian Crane's b) Mike Vining's c) White Rambach's (1)

5) What problem did Huston's group face?
   a) high winds b) blinding sunlight c) rain (1)

6) What did Huston get for his climbing trips?
   a) a special artificial leg b) a telephone c) firewood (1)

B. Use the words in the list that is dark typed to complete the paragraph. **[8]**

Northern Hemisphere	**oxygen**	**amputate**	**ice axes**
physical disabilities	**defeat**	**persisted**	**artificial**

As a boy, Todd Huston was in a bad boating accident. Doctors had to (1) _____ his leg from the knee down. He was fitted with an (2) _____ leg. Huston went on to help others who also had (3) _____. Denali is one of the Coldest mountains in the (4) _____ There is not enough (5) _____ in the thin air near the peak. Huston's group used sharp tools called (6) _____ to help them climb the walls of ice. At times, Huston was worried that the mountain might (7) _____ him. Still, he (8) _____ until at last he stood on the summit.

C. Answer the following questions about the text. **[6]**

1. In 1993 what did Huston join? (2)

_____

2. When Huston said: "I am representing the struggle through climbing." Who Who did he represent? (1)

_____

3. When Huston beat Crance's record, Huston did it in _____ days and

Crane did it in _____ days. (1)

4. Do you think this story is a true story? Give a reason to state your answer. (2)

_____

_____.

Comprehension Test Total: _____/20

SECTION B – LANGUAGE

A. Parts of Speech (Use the text of "Great Changes") **[5]**

1. In line 2 write down **two verbs**. _____ _____ (1)
2. In line 5 write down **an adjective**. _____ (1)
3. In line 9 write down **a proper noun**. _____ (1)
4. In line 15 write down **a pronoun**. _____ (1)
5. In line 21 write down an **adverb of frequency**. _____ (1)

B. Replace the suitable conjunction in the sentence with a semi-colon (;) **[2]**

Many of them did give up because of the stormy weather.

_____

_____ (2)

C. Underline the dependant clause in the sentence. **[3]**

1. As Huston climbed up Denali, he met climbers coming down.
2. Huston had to come in shape, before he could climb any mountain.
3. Before the accident, Huston played sport.

D. What type of sentence is the following sentence? (Statement, Exclamation, Command or Question) **[2]**

1. Denali had many dangerous storms. _____ (1)
2. What was the first mountain that Huston climbed? _____ (1)

E. Replace the underlined word with the correct pronoun. **[3]**

1. Denali has many dangerous storms.

   _____ (1)

2. The team planned to beat that time.

   _____ (1)

3. On the 1st of June, Huston was struggling on the mountain.

   _____ (1)

F. Look at the following sentences and underlined the correct word in brackets. **[5]**

1) Woodall is called a mountain, but it is only 806 feet high.
   (Simple sentence / Compound sentence/ Complex sentence) (1)
2) When Huston was 14, he was in a bad boating accident.
   (Simple sentence / Compound sentence/ Complex sentence) (1)
3) His breath would rise high up in the air.
   (Simple sentence / Compound sentence/ Complex sentence) (1)
4) The 50 Peak Project later fell apart, but Huston kept going on his own.
   (Simple sentence / Compound sentence/ Complex sentence) (1)
5) Crane did not have a physical disability.
   (Simple sentence/ Compound/ Complex sentence) (1)

G. Look at the sentence. Which part of the sentence is the *subject* and which part is the *predicate*? Write it next to the correct word. **[3]**

Denali has many dangerous storms.

Subject - _____ (1)

Predicate - _____ (2)

H. Write the Prepositions under the correct column. **[6]**

inside, in order to, as far as, on top, over, because of.

Simple preposition	Compound preposition	Complex preposition

I. Form Question prompts of the following. **[6]**

ex. Are the animals going to notice us?
The animals are going to notice us, aren't they?

1) Did Huston climb up Denali?

_____

_____ (3)

2) Was Huston in a bad boating accident?

_____

_____ (3)

J. Underline the correct word in bracket. **[5]**

1. The leg (who /that) has been amputated is still strong. (1)
2. Huston (who /that) climbed up Denali never gave up. (1)
3. (This /These) men climbing set up a base camp at 7,000 feet. (1)
4. Huston himself was (persuaded /persuade) to break the record. (1)
5. Huston (thought /think) that he could beat Crance's record. (1)

Language Total: ____/ 40
